

# CITRA PRO

## CONCENTRATED CLEANER AND DEGREASER

Citra Pro is an economical concentrated industrial cleaner and degreaser that is used to remove oily, greasy accumulations and soils from environmental surfaces. Removes wax and polishes from floor tiles.

<b>Type:</b>	Water based, non-flammable degreaser
<b>Toxicity:</b>	Non-Toxic, do not take internally
<b>VOC's</b>	About 2 lbs./gallon
<b>Flammability:</b>	Non- Flammable.
<b>Color:</b>	Pink
<b>Odor:</b>	Citrus
<b>Coverage:</b>	Biodegradable surfactants and citrus solvents with non-butyl solvent boosters

NOTE: COVERAGE RATES MAY VARY DEPENDING ON POROSITY, TEXTURE, APPLICATION METHOD AND PRIOR SEALER APPLICATION. EXCESS BUILDUP SHOULD BE AVOIDED.

## PRODUCT HIGHLIGHTS

- Citra Pro will not burn even when soaked onto rags or other absorbent material. Even the concentrated product is completely non-flammable. It is the ultimate safety cleaner.
- Citra Pro is non-corrosive to steel and will not attack aluminum at the standard 1:5 dilution. It is pH controlled and contains special corrosion inhibitors.
- Citra Pro can be diluted up to 1:64 for light duty cleaning and will clean heavy greasy surfaces at 1:5 dilution.
- Citra Pro works much more efficiently than typical emulsifier degreasers. It penetrates through the greasy soil and breaks the bond at the surface. Thus, the greasy film is lifted off completely and the surface is left clean with no oily film remaining.
- Citra Pro contains no butyl solvents, chlorinated solvents, EDTA, NTA or other toxic substances.

## PRODUCT USES

Citra Pro is used to clean metal parts, greasy surfaces of floors, counters, equipment and all industrial applications where a non-flammable degreaser and cleaner is required. Removes wax/polish easily
