

# EZ SEAL

## WATER-BASED ACRYLIC SEALER

Ez Seal is a water-based acrylic that quickly penetrates and provides a thorough, durable seal or finish coating. Very good gloss retention; resists oils, water vapor, alkali and many acids. Seals and heals concrete preventing dusting. Prevents pitting and staining. Does not discolor when exposed to UV light and because it dries quickly, down-time is kept to a minimum.

<b>Type:</b>	Water-Based acrylic sealer
<b>Form:</b>	Liquid
<b>Odor:</b>	Minimal
<b>Color:</b>	Colorless
<b>Clarity:</b>	Clear
<b>Sediment:</b>	None
<b>Stability:</b>	1 Year Minimum
<b>Freeze:</b>	<b>DO NOT</b> let freeze
<b>pH:</b>	7.5-9.0
<b>Flash Point:</b>	>212°F
<b>Solids:</b>	25%
<b>Coverage:</b>	300 Square Feet Per Gallon

NOTE: COVERAGE RATES MAY VARY DEPENDING ON POROSITY, TEXTURE, APPLICATION METHOD AND PRIOR SEALER APPLICATION. EXCESS BUILDUP SHOULD BE AVOIDED.
